

Distinguished Eagle Pins & Charms Collectors Guide

THE REQUIREMENTS FOR THE DISTINGUISHED EAGLE SCOUT AWARD ARE:

1. The nominee must have earned the Eagle Scout rank through the Boy Scouts of America at least 25 years prior to submission of this nomination. If the national Eagle Scout database does not list the nominee as an Eagle Scout, the local council is obligated to provide proof acceptable to the Program Impact Department that the nominee did in fact receive the award.
2. The nomination must state the specific reasons or how the nominee has received extraordinary national-level recognition, fame, or eminence within the identified field.
3. Through the years, it has been established that a nominee should also have a strong record of voluntary service to his community. This is in addition to his achievement of a distinguished career, not in place of one. Service to Scouting is not required.

I have always been fascinated with the history of the Eagle Scout Award. A majority of my scouting memorabilia collection is Eagle Scout related items.

Distinguished Eagle Scout Dr. Terry Grove conducted lots of research on the history of the Eagle Scout Award. Terry and I would communicate with each other often about all the different varieties when it came to pins, charms, rank patches, advancement cards, congratulation cards, etc.

I was fortunate to purchase his DESA Pin / Charm collection after he passed away and combine it with my own. Terry's latest book "*100 Years of the Eagle Scout Award*" was published in 2012 and showcases many varieties. Since that time, several more varieties have since been discovered and my goal is to expand the collection and continue his legacy. His book provided black and white pictures of some hallmarks. This PDF showcases all the varieties discovered to date in color and with high-resolution images.

A special thank you to Ron Oslin for photographing the collection. The entire collection can also be viewed at: EagleScoutPins.com.

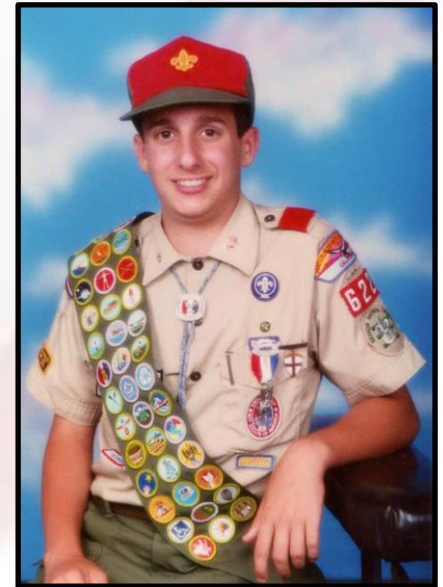

If you have a hallmark that is not displayed, please contact Brian Ives at Brian@bsator.com

I am looking to purchase any DESA pins / charms as well as any Knights of Dunamis Pins. If you have any for sale, please contact me.

About The Author

My name is Brian Ives and I have been in scouting since the first grade as a Tiger Cub. In 2002 I earned the Eagle Scout Award at the age of 14 with the Ventura County Council in Simi Valley, CA. As a youth, I served the troop in various leadership positions such as Troop Guide, Patrol Leader, Assistant Senior Patrol Leader, Senior Patrol Leader, and Junior Assistant Scoutmaster. I enjoyed creating monthly Troop Newsletters, Court of Honor Programs, Uniform Inspection Sheets, Duty Rosters, etc. Before reaching my 18th birthday, I earned 105 merit badges and 4 silver eagle palms. Once I became an adult, I volunteered as an Assistant Scoutmaster and Merit Badge Counselor for the Collections and Coin Collecting merit badges.

After relocating to Georgia in 2014, I became registered with the Northeast Georgia Council / Mowogo Lodge and have staffed at many of the National Scout Jamboree's and attend each NOAC event.

I am also the admin of several scouting websites / Facebook groups. Click the banner image to view each site.

Distinguished Eagle Lapel Pins

The Robbins Company made the original lapel pins for the Distinguished Eagle Scout Award. A spinlock and hinge was used to attach the pin to the coat lapel. The gold content was 14 karat. Soon a single stem pole located in the center of the pin replaced the spinlock and hinge. It proved to be unstable, as it would spin on its stem pole. The next pin was made with a single stem pole at the top of the pin.

In 1978, the gold content was changed to 1/10-10k and the pin was attached with two stem poles. Following next was a single stem pole at the top of the pin. (An error was produced where the stem pole was located at the bottom of the pin)

In 1999 brought Custom Fine Jewelry (CFJ) manufacturing to the table. The design was slightly changed, but not significantly. Laser technology was used to sharpen design.

In 2007, Stange Company was awarded the manufacturing contract. The gold content remained 1/10-10k, but the design was changed. Then in 2013, the lapel pin design was changed again. The words “Distinguished Eagle” was placed on the pin for the first time.

Each pin showcased below is different because of the gold content hallmark and the manufacturer logo.

Distinguished Eagle Device Pins

There is no square knot for uniform wear to denote the Distinguished Eagle Scout. From DESA's inception in 1969, NESA provided a small gold Eaglet that could be placed on the eagle square knot; which is sewn over the left-hand pocket on the uniform.

Over the years, the basic design has stayed the same with some minor variations because each manufacturer of the eagle pin used different dies and molds. Each pin showcased below is different because of the gold content hallmark and the manufacturer logo.
